# What you need

- ▶ Arc Pad
- ▶ Application Builder
- ▶ Active Sync
  - free download
- ▶ PDA
- ▶ GPS

# Benefits of Using ArcPad:

- ▶ Increase Productivity
- ▶ Increase Data Accuracy
- ▶ Extensive Customization Capabilities
- ▶ Navigation
- ▶ Enhanced Editing Tools

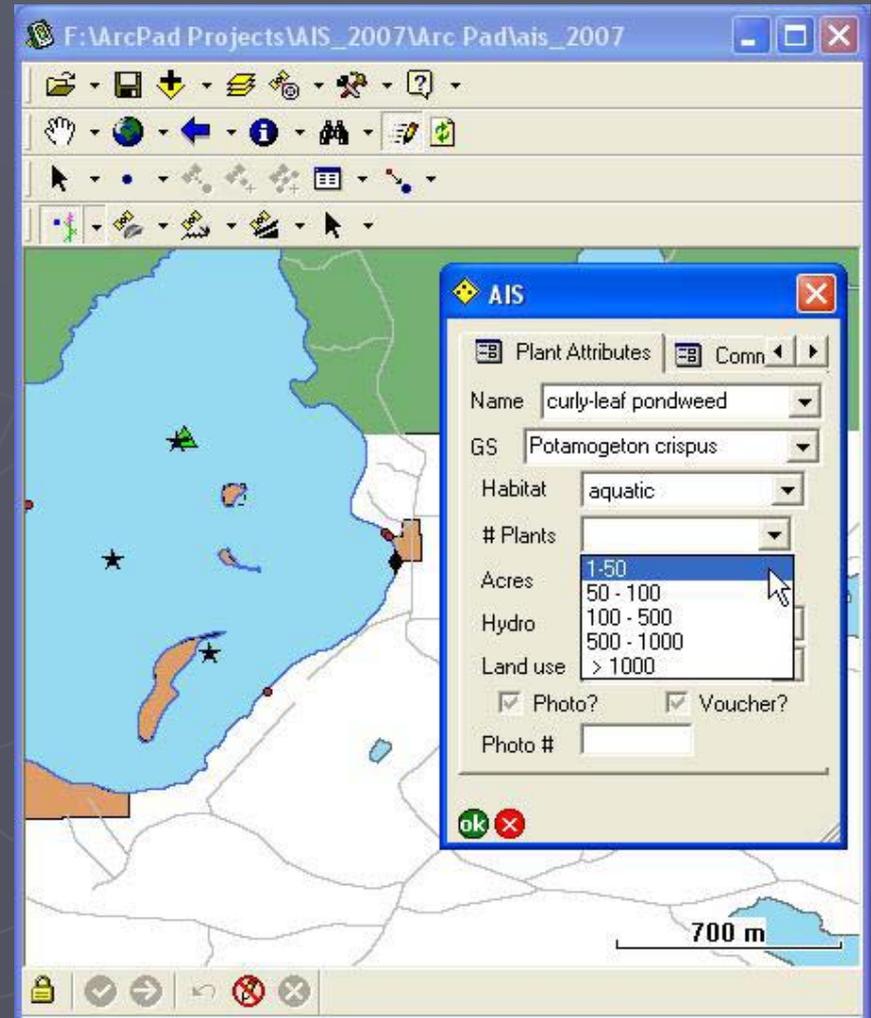

# Increase Productivity

- ▶ Stream line data collection
  - Decrease data entry in the field
  - No manual data entry or field forms
  - No file conversions

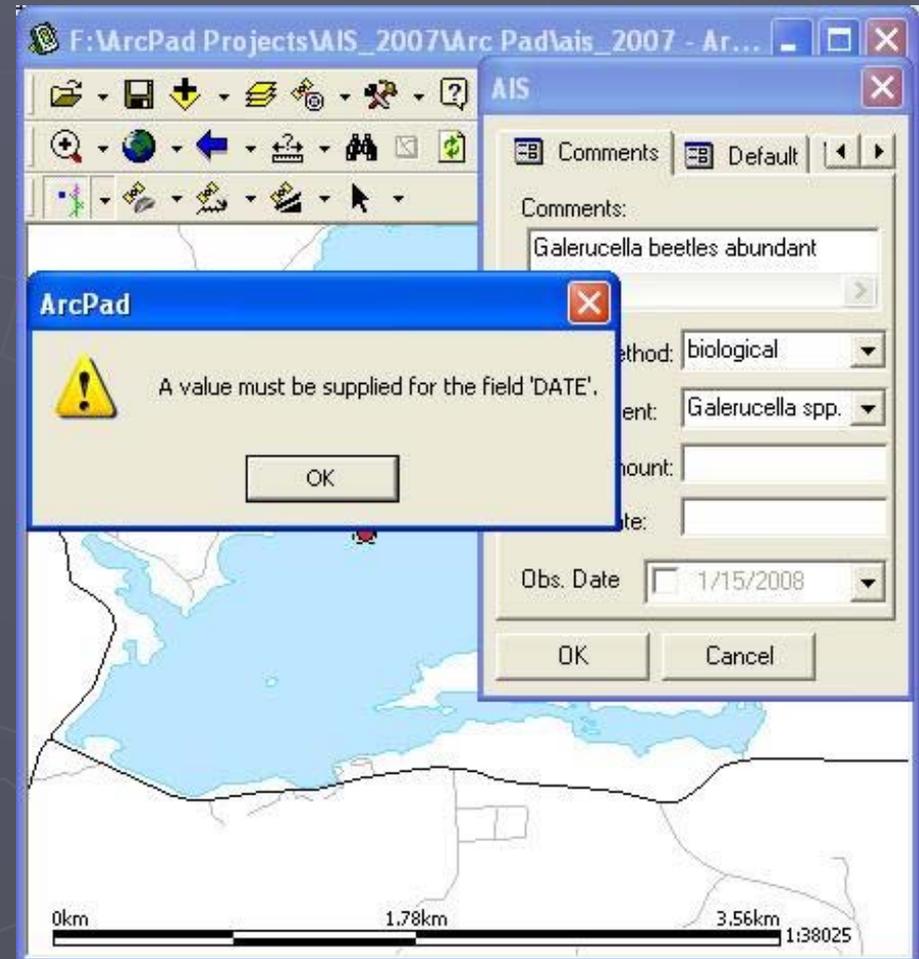

# Increase Data Accuracy

- ▶ Custom Drop Down Menus
- ▶ Mandatory Fields
- ▶ Quality Options
  - Accuracy Requirements
  - Projections

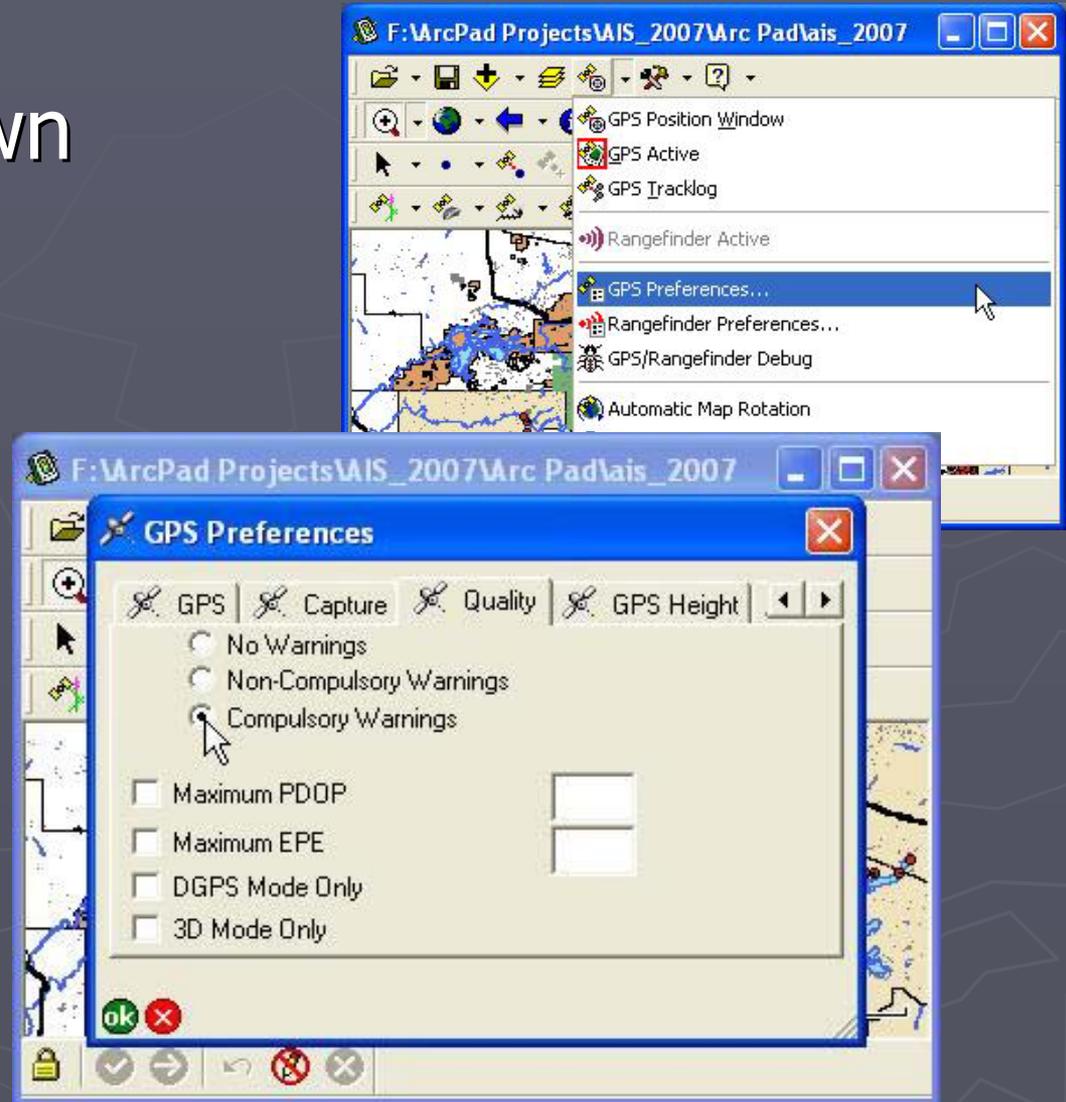

# Increase Data Accuracy

- ▶ Custom Drop Down Menus
- ▶ Mandatory Fields
- ▶ Quality Options
  - Accuracy Requirements
  - Projections

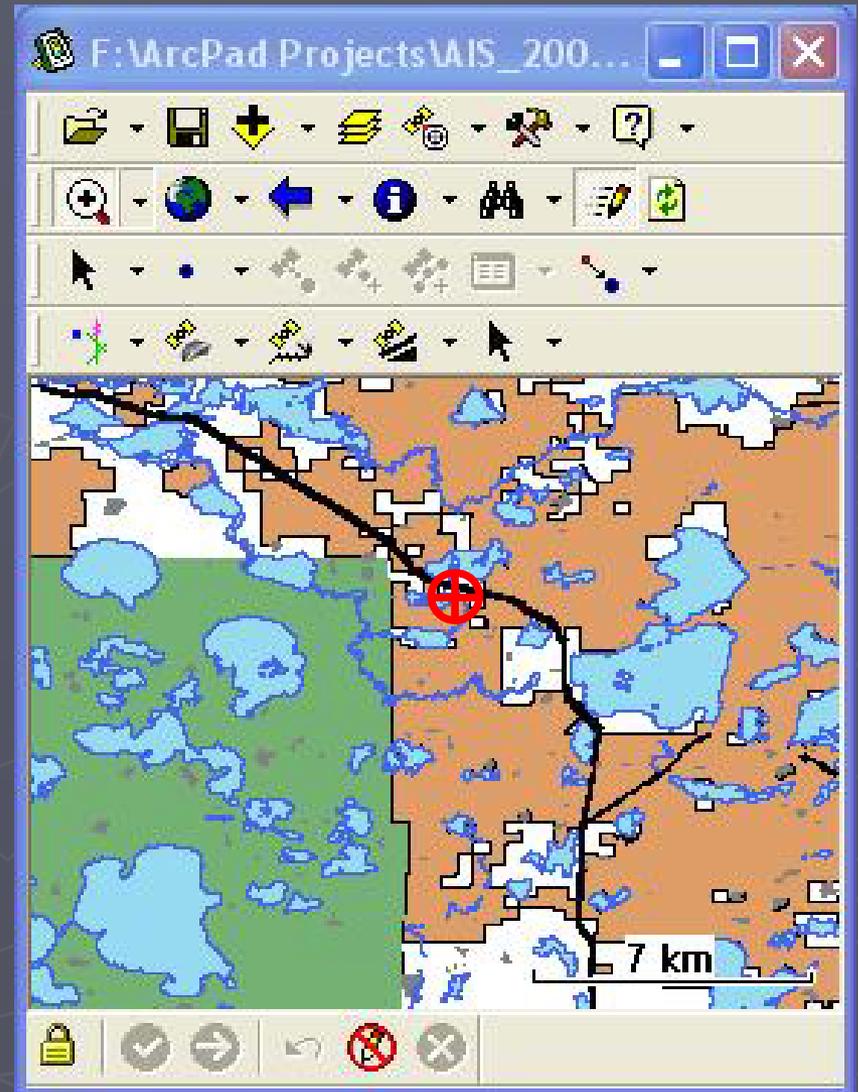

# Increase Data Accuracy

- ▶ Custom Drop Down Menus
- ▶ Mandatory Fields
- ▶ Quality Options
  - Accuracy Requirements
  - Projections

# Navigation

- ▶ Maps & Layer in view
  - Relevant data
  - Ability to hand plot
- ▶ Navigate to a specific location
- ▶ Tracklog
  - Survey efforts

# Custom to Your Needs

- ▶ Toolbars
- ▶ Tools
- ▶ Data Entry Forms
- ▶ Restricted Value Fields
  - String, Number, etc.

# Custom to Your Needs

- ▶ Toolbars
- ▶ Tools
- ▶ **Data Entry Forms**
- ▶ Restricted Value Fields
  - String, Number, etc.

The image displays three screenshots of the 'zm\_tow' data entry form, illustrating its flexibility and customization options.

**Top Left Screenshot:** Shows the 'zm\_tow' window with the 'Form' tab selected. The 'Site Information' tab is active, displaying fields for Date (1/16/2008), Site #, Site Depth (ft), and Site Description.

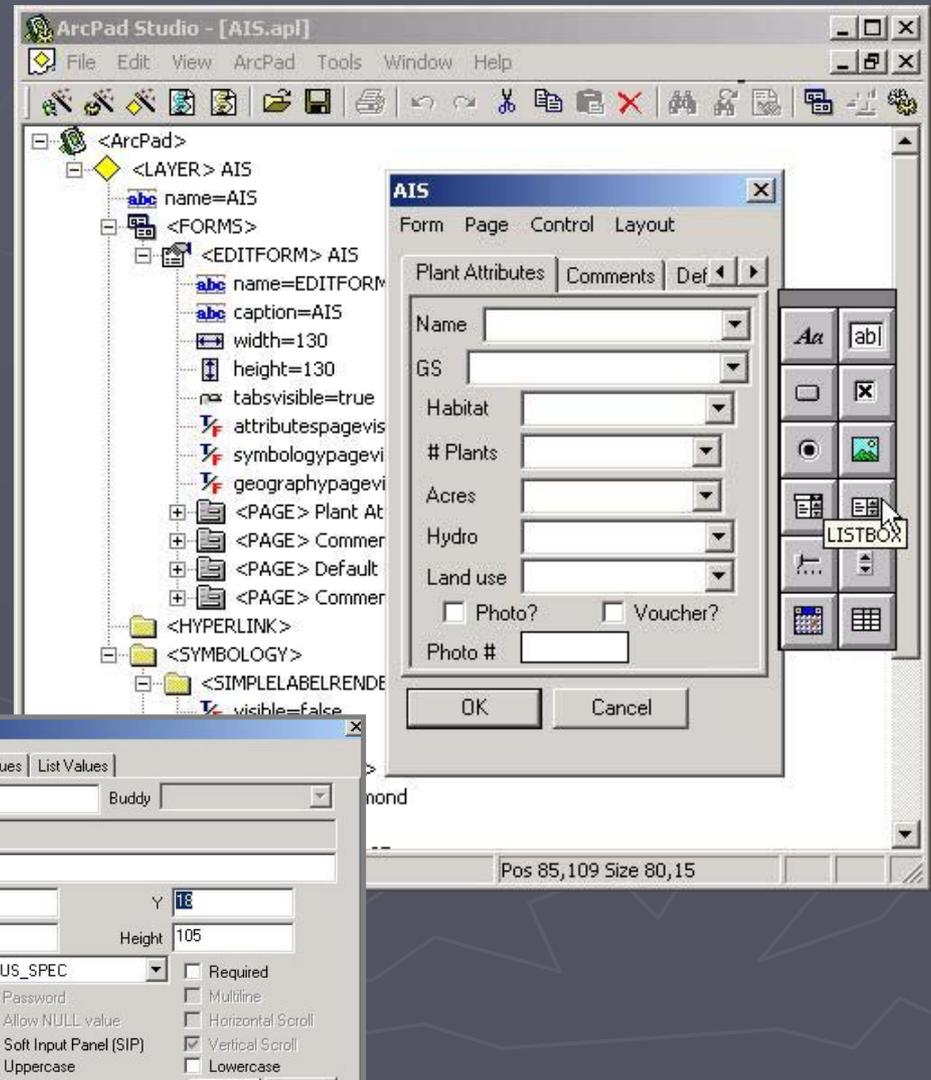

**Top Right Screenshot:** Shows the 'zm\_tow' window with the 'Form' tab selected. The 'Tow Information' tab is active, displaying fields for pH, Temp.(C), Time, and Specific Conductance (25C at 1 meter).

**Bottom Screenshot:** Shows the 'zm\_tow' window with the 'Form' tab selected. The 'pH/Temp' tab is active, displaying a dropdown menu for 'pH/Temp' and a field for '# of tows'. The dropdown menu is open, showing the following options:

- Oligotrophic - Two 2-meter tows
- Mesotrophic - One 2-meter tow
- Eutrophic - One 1-meter tow
- 4 parts alcohol to 1 part sample

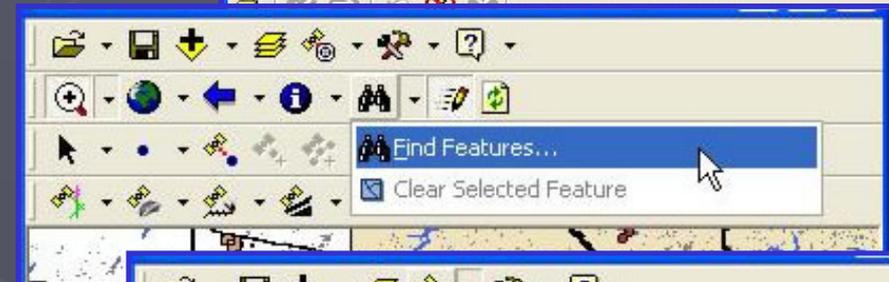

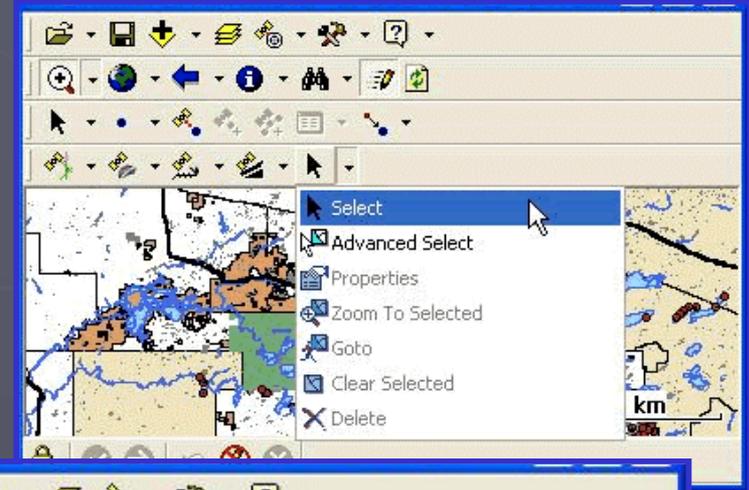

# Custom to Your Needs

- ▶ Toolbars
- ▶ Tools
- ▶ Data Entry Forms
- ▶ Restricted Value Fields
  - String, Number, etc.

# Enhanced Editing Tools

- ▶ Custom Icons
- ▶ Measure
- ▶ Query
- ▶ Spatial Bookmarks
- ▶ Edit/Update Existing Shapefiles
- ▶ Guide to a Location
- ▶ GPS Tracklog

# Drawbacks

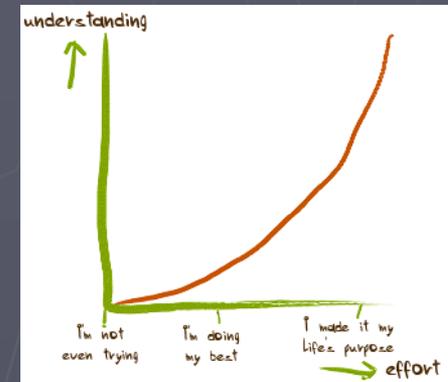

## ▶ Cost

- Made up by efficiency

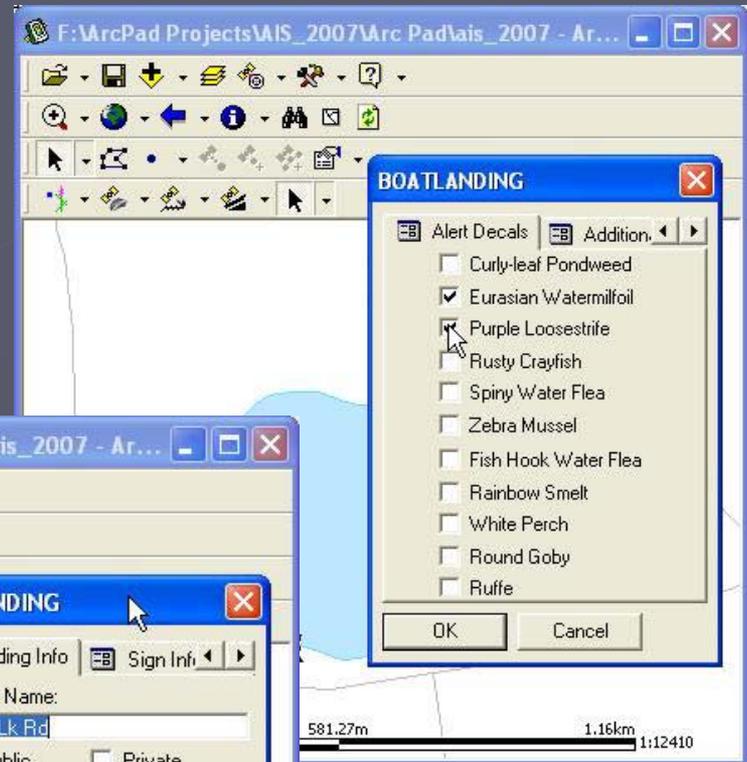

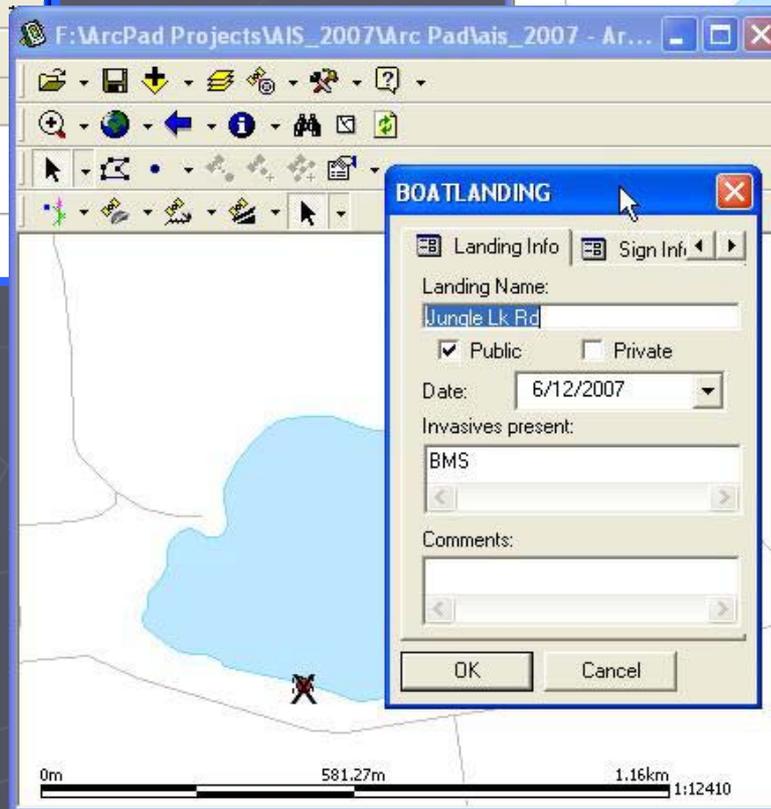

## ▶ Learning Curve

## ▶ Gizmo Factor

- Initial time to work out bugs
